

Agenda Date: January 16, 2014
Agenda Placement: Regular
Estimated Time: 20 Minutes
Continued Item: No

Board Agenda Item

TO: Air Pollution Control District Board

FROM: Dave Van Mullem, Air Pollution Control Officer

CONTACT: Michael Goldman, Engineering Manager (961-8821)

SUBJECT: Peaking Power Plants

RECOMMENDATION:

Receive a presentation from Southern California Edison regarding Peaking Power Plants.

DISCUSSION:

Southern California Edison (SCE) will brief your Board about the possibility of a Peaking Power Plant in Santa Barbara County. SCE staff will discuss grid reliability concerns for its Santa Barbara County Service Area and potential solutions to address those concerns. District staff have met with SCE on two occasions regarding their proposal and have discussed our concerns and how the District's rules would impact the project.
