# TESTIMONIALS

*The air is cleaner because this organization upgraded its equipment, with funding provided by:*

*El aire está mas limpio porque esta organización actualizó su equipo, gracias a los fondos aportados por:*

air pollution control district  
SANTA BARBARA COUNTY

ourair.org @OurAirSBC  

Our new tractor has made a real difference with field efficiencies. The tractor is a huge asset to the company. Plus, it's pretty nice to sit inside of it and feel a sense of pride and accomplishment. Thanks a bunch for all your help through the replacement processes.

- **S&S Seeds (Los Alamos)**

The tractors we have purchased with grant assistance are much more reliable. It is a big benefit to replace aging problematic equipment with new units that have less chance of breakdowns. We have also seen greater efficiency on fuel consumption.

- **Plantel Nurseries (Santa Maria)**

Morale is higher, as is comfort, which helps operators better enjoy their usually long work hours. It is very noticeable how much longer we can work without refueling. The new technology is great. Thank you so much for all your help.

- **Santa Barbara Farms (Lompoc)**
