

air pollution control district
SANTA BARBARA COUNTY

Agenda Item: D-4
Agenda Date: August 17, 2023
Agenda Placement: Admin
Estimated Time: N/A
Continued Item: No

Board Agenda Item

TO: Air Pollution Control District Board

FROM: Aeron Arlin Genet, Air Pollution Control Officer 

CONTACT: David Harris, Engineering Division Manager, (805) 979-8311

SUBJECT: Summary of Permitting Activity

RECOMMENDATION:

Receive and file the attached summary of permitting activity during the months of January through June 2023.

DISCUSSION:

Pursuant to §42300 of the California Health and Safety Code, an Air Pollution Control District Board may establish a permit system. This system requires that before any person builds, erects, alters, replaces, operates, or uses any article, machine, equipment, or other contrivance, which may cause the issuance of air contaminants, a permit be obtained from the Air Pollution Control Officer of the District in order to proceed with said actions.

The review of new sources of pollution entails detailed engineering analyses of permit applications; evaluating applications for compliance with local, state, and federal rules and regulations; issuing the mandated authority to construct permits; and, if compliance with applicable air regulations and permit conditions is met, issuing the permits to operate. Reevaluations of existing permits, as required by law, are performed every three years to review the project descriptions, equipment lists, and conditions and to bring the permits current with any new or revised rules and regulations. Larger sources require federal Part 70 operating permits in addition to the District's permitting requirements.

In order to keep your Board informed of the permitting actions taken by the Air Pollution Control Officer, the attached report lists a summary of the 261 permits issued during the months of January through June, 2023. A similar update will be provided to your Board at its January meeting to capture the permit actions during the months of July through December 2023.

Aeron Arlin Genet, Air Pollution Control Officer

 (805) 979-8050

 260 N. San Antonio Rd., Ste. A Santa Barbara, CA 93110

  @OurAirSBC

The format of the information includes the permit type and number, facility name, company, location, permit description and date of issuance. The following permit types are included in the report:

- Authority to Construct (ATC)
- Authority to Construct Modification (ATC Mod)
- Authority to Construct and Permit to Operate (ATC/PTO)
- Authority to Construct and Permit to Operate Modification (ATC/PTO Mod)
- Decision of Issuance (DOI)
- Emission Reduction Credit Certificate (ERC Cert)
- Written Exemption (Exempt)
- Part 70 Administrative Amendment (PT-70 ADM)
- Part 70 Renewal Permit (PT-70/Reeval)
- Permit to Operate (PTO)
- Permit to Operate Modification (PTO Mod)
- Reevaluation (Reeval)
- Transfer Owner/Operator (Trn O/O)
