Hi Kevin,

I'm still planning on attending the meeting today at 10 AM.
Jacob, can you please send out a new invite?

Laura M. Nuzzo

All,

Should a new meeting be scheduled since Steve is no longer with CCA and he was the meeting organizer? Not sure if you all have access to his Google Meet calendar and can admit people into the meeting.

I'm setting up this meeting with Kevin Brown to respond to his question posed in a May 5th email to Lindsay in which he writes the following:

- *"The District understands the flowrate issue with connecting the Dab Lab's fume hood to the cryogenic condenser, but we cannot determine a technical reason why the Dab Lab's vacuum ovens cannot be connected to the cryogenic condenser or a Rotovap/chiller system. Vacuum ovens typically do not have high flowrates due to the nature of their construction and operation. Additionally, the oven ducting should be able to be connected cryogenic condenser or Rotovap/chiller system. This would allow the solvents entrained in the produced cannabis oils to be controlled. Please let me know if controlling emissions from the Dab Lab vacuum ovens is technically feasible and/or cost effective. If it is, please submit a revised process flow diagram and updated emission calculations."*

It seemed to make the most sense to have a brief meeting to clearly communicate our position regarding the matter and the supporting reasons. I'm allowing 45 minutes, although I don't think we'll need that much time.

Going (brownk@sbcapcd.org)? [Yes](#) - [Maybe](#) - [No](#) [more options »](#)

Invitation from [Google Calendar](#)
