

Tri-Counties Hydrogen Readiness Planning – Administrative Items

This appendix includes a number of documents that were used or developed during the performance of this planning project. They provide details of the Project Schedule (Figure G.1), a summary of existing retail stations in the priority locations, and a summary of contacts made with permit agencies and First Responders. These records were established to support the Performance Evaluation process that the project team applied to help with the transition to implementation that will occur once the planning project has ended.

The ultimate success of the Tri-Counties Hydrogen Readiness Planning project (THRP) will be the installation of an increasing number of hydrogen refuelling stations in the Tri-Counties, situated in locations that are well suited to serve the growing numbers of hydrogen vehicles that are anticipated. The probability of success is increased if the site property owners and operators have also indicated a willingness to consider the installation of hydrogen dispensers at their stations, as and when funding becomes available

As these hydrogen stations are permitted and built, local agencies will be knowledgeable of important issues and equipped with resources and contacts to help expedite the permitting process. First responders will have access to resources that will help to develop confidence and awareness for responding to potential incidents or accidents involving hydrogen and Fuel Cell Electric Vehicles (FCEVs). An important part of this planning project has been to help facilitate these efforts.

The assumption is made that stations will be funded and installed in a staged manner, and as such, the plan includes a list of higher priority locations within the Tri-Counties where initial demand for FCEVs is anticipated. Appendix B explains how these general locations and specific stations were identified. Based on this siting analysis, the following jurisdictions were prioritized in each County:

County of Ventura	County of Santa Barbara	County of San Luis Obispo
City of Thousand Oaks	City of Santa Barbara	City of Arroyo Grande
City of Simi Valley	City of Goleta	City of San Luis Obispo
City of Camarillo	City of Carpinteria	City of Atascadero
City of Ventura	City of Santa Maria	City of Paso Robles
City of Moorpark	City of Buellton
